Security and Data Rights

Deployment: single-tenant VPC per bank; no cross-tenant data flows.

Encryption: AES-256 at rest, TLS 1.3 in transit, KMS-managed keys.

Data rights: all customer contracts grant model-improvement rights on de-identified alert dispositions (clause 7.2 standard).

Subprocessors: AWS us-east-1 only.

SOC 2 Type II: fieldwork in progress, report expected Q3 2026.

Incident response: written IR program, 24-hour customer notification SLA.
